A Simple Solution
**UNPARALLELED
RESULTS**

The Benefits of Clear Aligners

Clear aligners are an esthetic and convenient alignment solution. More patients every day are searching for a superior alternative to traditional braces. Incorporating aligners into your practice will allow you to cater to current and potential patients by allowing you to offer an effective, reliable solution to your patients.

PATIENT-DRIVEN

MINIMAL CHAIR TIME

HIGH ROI

ESTHETIC & CONVENIENT

À la Carte

Utilizes a predetermined number of aligners that can be easily changed and adjusted depending on treatment. Indicated for patients requiring minimal to moderate alignment.

Unlimited

Utilizes as many steps as needed throughout the course of the plan, at no additional cost. Indicated for patients requiring moderate to advanced orthodontic needs.

Partner with the Dental Laboratory You Can Trust

Fabricated out of an innovative, biocompatible material these clear aligners are virtually invisible, durable, and comfortable. You will be able to easily prescribe Smile Shapers to your patients. Smile Shapers aligners will gently shift teeth into alignment, helping to ensure that every treatment plan ends in a perfect smile.

Carbon Crafted

Carbon utilizes proprietary DLS technology which allows Smile Shapers to produce clear aligners with superior fit and accuracy. Carbon printers are among the fastest in the industry which allows Smile Shapers the ability to accommodate requests for quick turn-around without sacrificing quality. Carbon boasts the highest up-time in the industry which ensures that Smile Shapers will work around the clock to meet your needs.

Zendura™ FLX Aligner Material

Zendura™ FLX features a unique elastomeric inner layer with a hard outer shell engineered to grip the teeth firmly and provide exceptional elasticity... the real magic of this innovative aligner material. The dual-shell structure also delivers a precision fit and unparalleled strength, as well as a tough barrier against bruxing or grinding from the opposing arch.

- Provides gentle but effective teeth movement force, moving the teeth as prescribed.
- Is amazingly comfortable to wear, as well as easy to insert and remove.
- Is virtually invisible, and will remain clear throughout the full course of use.
